

Samsung Epix Battery Replacement

This guide will instruct how to access the battery.

Written By: Theodore Arehart

INTRODUCTION

- 1) The tools necessary to remove and access battery.
- 2) A step by step guide of how to remove back panel.

Step 1 — Battery

- Press button on back of phone below camera.
- While button is depressed, remove the back panel of the phone by sliding off (not shown in picture).

Step 2

- Grasp the battery near the bottom with two fingers.
- Lift battery up and out gently.

To reassemble your device, follow these instructions in reverse order.
